

How to Access Your Cook Dashboard

Your first three steps to going live on Cutlaski

We're excited to have you as a food partner. Getting started takes just three steps — this guide walks you through each one.

Before you begin: make sure you've completed your cook application and received your confirmation email from Cutlaski.

1 Open the Cook Dashboard

From the Cutlaski home page, click “Cook Dashboard” in the top navigation bar.

2 Sign in to your account

Follow the numbered arrows: select “Cook” (1), enter your email (2) and password (3), then click “Sign in” (4).

3 Explore your dashboard

You'll land on your personalised dashboard. Everything you need to run your kitchen lives here — the numbered arrows point to each control.

Your dashboard controls

#	CONTROL	WHAT IT DOES
1	Add dish	Create a new dish and add it to your menu
2	Manage menu	Edit, hide or remove dishes you already offer
3	Edit hours	Set the days and times you're available to cook
4	View payouts	Track your earnings and see when you'll be paid
5	Accepting orders	Toggle this on to go live and start receiving orders
6	Profile settings	Click your name to update your details and preferences

Ready to go live?

Add at least one dish, set your available hours, then switch on “Accepting Orders”. That’s it — diners can now find and order your food.

We can't wait to see your menu on Cutlaski. If you have any questions or feedback, just reach out — we're here to help.

Let's grow together!

Team Cutlaski
