

How to Set Your Service Options

Pickup or delivery — how your food reaches diners

Your service options decide how diners get their food from you: where you're based, whether you offer pickup or delivery, how far you'll travel, and what you charge for it.

This is the last episode in the Cook Resources series. If you've followed along from Episode 1, you're ready to take orders.

1 Sign in to your Cook Dashboard

From the Cutlaski home page, click “Cook Dashboard” and sign in.

2 Open your profile settings

Click your name in the top-right corner of the dashboard — see arrow (1).

3 Go to Kitchen and Locations

In Profile Management, click “Kitchen and Locations”. This is where your service options live.

4 Set your options, then publish

Work through the options below, then click “Save and Publish” to make them live.

Your service options

OPTION	WHAT IT CONTROLS
Location	Where you cook from. This is what diners see when they search for food near them.
Service method	Pickup, delivery, or both — whichever suits how you want to work.

OPTION	WHAT IT CONTROLS
Order type	The kinds of orders you'll accept.
Delivery radius	If you deliver, how far you're willing to travel. Diners outside it won't see you as a delivery option.
Delivery fee	What you charge to deliver.
Delivery policy	Your own terms, in your own words — shown on your public profile for diners to read.

5 Check your public profile

Your delivery policy appears on your public profile, where diners can read it before they order. Worth checking it says what you want it to say.

The screenshot shows a user's public profile on the Cutlaski app. The profile is for 'Mana Cuisine' in Regina, SK, CA, with a 5-star rating and 1 review. The 'Policies' tab is selected, showing Cancellation, Refund, and Delivery policies. A 'Your Order' summary on the right shows a Biryani order for CAD 15.00, with a total of CAD 17.44 including tax and service fee.

Say what you mean

Your delivery policy is the one place you speak to diners in your own words. Be clear about what you will and won't do — it saves awkward conversations later, and diners appreciate knowing where they stand.

That's the series

You now know how to reach your dashboard, add dishes, manage your menu, take orders, set your availability, get paid, and choose how your food reaches diners. Everything you need to run your kitchen on Cutlaski.

Change any of it whenever you like — nothing here is permanent. If you have any questions or feedback, just reach out. We're here to help.

Let's grow together!
